# ASEEL SULEIMAN MOHAMMAD ABU KHADRAh

Amman, Jordan |+962 78 625 2001| aseel.suliman04@gmail.com | LinkedIn| GitHub| Portfolio

**PROFESSIONAL SUMMARY**

Motivated Fresh Cyber Security Graduate from the Hashemite University with a solid foundation in network security and Python programming. Experienced in developing Machine Learning-based Intrusion Detection and Prevention Systems (IDS/IPS). Active participant in IT Faculty events, demonstrating strong teamwork and organizational skills. Seeking an internship or entry-level role in Threat Management and SOC operations to apply academic knowledge and practical training in a professional IT environment.

---

**SKILLS**

- **Technical Skills:** Python, JavaScript, Network Security, IDS/IPS concepts, Machine Learning fundamentals, IT Troubleshooting.
- **Soft Skills:** Analytical Thinking, Problem Solving, Adaptability, Teamwork.
- **Languages:** Arabic (Native), English (Professional working proficiency in reading and writing).

---

## CERTIFICATIONS

- **Cybersecurity Discovery Piscine - 42 Amman (September 2026 - Present)**

  • Engaging in an intensive, hands-on, peer-to-peer cybersecurity training program.

  • Developing practical skills in web security vulnerabilities (e.g., Fuzzing, Path Traversal), OSINT, and cryptography.

  • Enhancing problem-solving and self-directed learning abilities through collaborative, real-world challenges.

- **Masar Cyber Security Bootcamp - National Cyber Security Center of Jordan (July - August 2026)**
- Completed intensive hands-on training covering Defensive Security, SOC operations, and Incident Response.
- **Cyber Warriors Training (CTF Training)** - National Cyber Security Center of Jordan (2024)

    - Completed 40 hours of intensive, hands-on Capture The Flag (CTF) training.
- **JavaScript Essentials 1** - Cisco Networking Academy (May 2026)

---

**TECHNICAL PROJECTS** **Automotive Network Security System (CAN bus)** | Graduation Project

- Designed and developed an Intrusion Detection and Prevention System (IDS/IPS) for vehicle networks.
- Utilized Python and Machine Learning algorithms to monitor and analyze Controller Area Network (CAN) traffic.
- Successfully simulated the detection and mitigation of cyber attacks, demonstrating practical application of network security principles.

---

**EXTRACURRICULAR ACTIVITIES** **Active Participant & Organizer** | IT Faculty, Hashemite University

- Actively engaged in organizing and participating in university events, including the annual Scientific Day.
- Collaborated with peers and faculty members to facilitate activities, demonstrating strong communication, teamwork, and adaptability.

---

- **EDUCATION** **Bachelor of Science in Cyber Security** Hashemite University, IT Faculty, Jordan Graduated: August 2026
